

## NDT LEVEL 2 TECHNICIAN

TESTIA, an Airbus company, is specialized in aerospace Non-Destructive Testing (NDT) since 1991. We train, certify, audit and advise NDT technicians of the aerospace industry and beyond. We also test manufacturing or in-service parts as well as aircraft fluids. With a strong engineering background, we develop standard and customized NDT tools for our customers.

### Context of the mission:

For a mission for one of its customer, TESTIA is looking for a NDT technician Level 2 EN4179/NAS410 in UT, PT and ideally ET.

### Missions and objectives:

Your main missions will consist in:

- Carrying out non destructive tests on aircrafts or components from aircrafts in Final Assembly Line or at manufacturing stage
- Implementing the technique, carrying out the adjustments and calibration of the device and applying inspection procedures, according to one's certifications
- Writing down technical instructions for the implementation of the requested test to be validated by the Level 3
- Writing down inspections reports including results, sanctions and certifying the component's conformity as per specified acceptance criteria
- If need be, writing down delivery documents.
- Participating in the development of feasibility studies by leading non destructives tests on new materials, procedures, assemblies, structures... etc. and determining the most suitable methods
- Contributing to the development of NDT solutions dedicated to specific needs, followed by their adjustment, qualification and promotion
- Conducting the follow up of customers' requirements as per stated in internal quality procedures to carry out the operation
- Maintaining obtained skills and certifications and acquiring new ones.

### Required skills:

Degree in physics or equivalent

Good knowledge of aircraft structures and materials

EN4179/NAS410 Ultrasonic, Dye Penetrant level 2 certifications at least. Eddy Current level 2 is a plus.

Good level of English

You shall be energetic, flexible, organized, rigorous and autonomous, as well as being a people-person with good writing skills

### About the position:

**Contract:** Local contract, permanent

**Location:** Montréal area.

The job shall be performed both at Testia's facility and at the client's facilities.

**Salary:** depending on profile
